

On September 9, 2025, the City Council adopted Ordinance No. 2025-09-26 establishing updated local business receipt fees. The revised fee schedule reflects current industry standards, supports efficient service delivery, and ensures continued compliance with state and local regulations. These updates promote transparency and align fees with the true cost of permitting and inspection services.

Sec. 16-39. - Local business tax receipt inspection; required inspection fee.

The development services department shall collect, in addition to the local business tax receipt as set forth in this article, an additional service fee for each application submitted requiring an inspection prior to the issuance of a business tax receipt. This fee as set forth in the fee schedule below will defray the cost of handling and processing the application and inspections for occupancy of the premises by the development services department, which include air conditioning, electrical and plumbing inspections. These inspection fees are not refundable:

Local Business Tax Receipt Inspection Service Fee Schedule

A. BTR - Inspection Services

Table 1.1: Business Tax Receipt - Inspection Service Fees

<u>Description</u>	<u>Fee</u>
Alcoholic Beverage Certificate of Use	\$650.00
Zoning Inspection and Reinspection	\$250.00
